## Resveratrol Supplement

**Essential Eternity** offers the same amazing formula as original **Eternity**, without the energy blend. It is a superior concentrated elixir that floods the body with high powered antioxidants including Resveratrol that address the daily struggle we all face with oxidative damage from detrimental free-radicals.

Resveratrol is found largely in the skins of red grapes. Resveratrol is classified as a phytoalexin—an antibiotic like substance that is produced by the plant to protect itself from fungus, ultraviolet light, stress or trauma. It is interesting that Resveratrol is protecting the plant from the harsh environment and it can do the same for mankind.

Mounting evidence demonstrates that Resveratrol, increases the activity of a specific sirtuin gene, SIRT1 that protects the body from diseases by revving up the mitochondria, a kind of cellular battery that slowly runs down as we age. (3) By recharging the batteries with Resveratrol, SIRT1 can have profound effects on health including increased energy and weight release support.

It is a known fact that only high amounts of Resveratrol actually deliver impressive benefits. Sisel uses nanotechnology to make each ½- ¾ ounce serving of **Essential Eternity** up to 250 times more available than encapsulated Resveratrol. It would take 720 glasses of wine to equal one serving of **Essential Eternity**. There are 65,000 micrograms in a serving of **Essential Eternity** and 90 in a glass of wine on average. Eternity's proprietary liquid delivery system is designed to protect it through the entire digestive process and deliver its nano-sized particles into the very cells that utilize them. Sisel researchers believe that holding **Essential Eternity** in your mouth for 60 seconds will greatly increase its absorption and bioavailability to the cells.

We all recognize that free-radicals can set off internal inflammatory cascades and damage DNA which can become chronic, degenerative and increase the aging process. Resveratrol addresses these issues head on with its superior free-radical scavenging capabilities and activation of SIRT1. Drink up and enjoy the multiple benefits of **Essential Eternity**.
